

# THE PRAIRIE STAR

## A Mammoth-Sized Celebration at the Nature Playscape Grand Opening

by Laura DeCook, Environmental Ed Coordinator

Mahaska County Conservation hosted a community celebration on Saturday, November 8, 2025, to debut the new Nature Playscape and commemorate the conservation board's 50th anniversary. Nearly 150 community members attended the event, showing strong support for this exciting addition to Caldwell Park. Located just outside the ELC, the Nature Playscape offers a welcoming outdoor space designed to spark exploration and imaginative play. There are natural climbing features such as trees, logs, and stumps, along with a large woolly mammoth skeleton designed for kids to climb on. The area also includes swings, a musical instrument path, interpretive nature signs, and picnic spots for families to enjoy. Thousands of native plants surround the site, which will provide a vibrant natural backdrop this next spring and summer. In addition, an oak savannah, prairie restoration area, and oxbow wetland were added to enrich the landscape and provide opportunities for nature-based learning. Friends of Mahaska County Conservation provided refreshments for guests, adding to the celebratory atmosphere.

# MCCB UPDATES

## Rain or Rays, the Nature Playscape Invites Adventure

Even though the grand opening of the Nature Playscape on November 8 was a wet and rainy day, the weather didn't stop families from coming out to celebrate and enjoy the new space. Just a few days later, the sun came out and warmer temperatures brought even more visitors—families, kids, and bike trail enthusiasts—all eager to explore the playscape. Mahaska County Conservation is excited to provide this outdoor area for the community to enjoy. Future additions will include an outdoor restroom and a water fountain, so keep an eye out for more updates!

# NATURE NOTES

## Oak Savannas in Iowa

by Laura DeCook, Environmental Ed Coordinator

Oak savannas were once one of Iowa's most widespread ecosystems, covering millions of acres across the state. They formed a natural transition zone between open prairie and dense woodlands. Early settlers often described these areas as "park-like"—wide, grassy spaces dotted with large, spreading bur oaks, the signature tree of Iowa's savannas.

Iowa's oak savannas supported a rich mix of prairie grasses and wildflowers. It provided food, nesting sites, and shelter for many wildlife species such as red-headed woodpeckers, wild turkeys, white-tailed deer, and various pollinators.

These habitats were historically maintained by periodic fires, which kept brush and shade-loving trees from overcrowding the landscape. Today, less than 0.1% of Iowa's original oak savannas remain due to land conversion, fire suppression, and the spread of dense woodlands. Because of this steep decline, oak savannas are considered one of Iowa's rarest and most threatened ecosystems.

Across the state, conservation groups and land managers are working to restore these habitats through selective thinning to reopen the canopy, prescribed burning to maintain grassland plants, and planting bur oak trees in areas where savanna structure has been lost.

As part of this statewide effort, bur oak trees have been planted next to the nature playscape at Caldwell Park to help recreate an oak savanna. As these oaks grow, they will provide natural shade for park visitors, improved wildlife habitat, and a restored piece of Iowa's native landscape. This project helps bring back a beautiful, historic ecosystem while enhancing the park for future generations.

## Online Rentals

MYCOUNTY PARKS.COM

**You can now rent cabins, shelter houses, and the ELC community room online!**

<https://www.mycountyparks.com/County/Mahaska>

### **Eveland Access Cabins (Apple & Birch)**

Address: 1681 – 290th St., Oskaloosa, Iowa 52577

# PROGRAMS FOR ALL AGES

## December

### 18 Christmas Ornament Workshop

6:00-7:00 pm

#### Environmental Learning Center

Get into the seasonal spirit with this fun, nature-inspired craft program! Participants of all ages are invited to create festive ornaments using pinecones, wood cookies, and other natural materials. This free, hands-on activity is a wonderful way to celebrate the season and take home a handmade decoration to enjoy or give as a gift. Join us for a cozy crafting experience that's perfect for the whole family! **Save your seat by signing up with the QR code on this page.**

### 22 Reindeer Facts & Fun!

10:00-11:00 am

#### Environmental Learning Center

Join us for a fun Reindeer program! Participants will learn all about these amazing animals—what they eat, where they live, and how they survive in the cold. We'll explore fun reindeer facts and get into the winter spirit together. Perfect for young and old nature lovers! **Pre-registration is needed, and you can sign up using the QR code on this page.**

### 22 Ice Age Mammoths

1:00-2:00 pm

#### Environmental Learning Center

Step back in time and discover the amazing world of Ice Age mammoths! In this fun, hands-on program, kids will learn how woolly mammoths survived the freezing Ice Age—from their giant curved tusks to their thick fur coats. We'll explore real mammoth bones dug up right here in Mahaska County and find out what they can teach us about these incredible animals. To finish our adventure, we'll listen to exciting mammoth stories and imagine what life was like when these giants roamed our land. Perfect for young and old explorers who love fossils, animals, and big discoveries! **Pre-registration is needed, and you can sign up using the QR code on this page.**

### 23 Animal Tracks & Scat Discovery

10:00-11:00 am

#### Environmental Learning Center

Join us for an exciting exploration of local wildlife! Participants will learn how to identify different animal tracks and scat and discover the clues they reveal about the animals living around us. After our indoor introduction, we'll head out on a guided hike to put these new skills into action and see what signs of wildlife we can find. This free, all-ages program is perfect for curious nature lovers and outdoor adventurers alike! **Please sign up with the QR code on this page.**

### 23 Nature Documentary "Chimpanzee"

1:00-2:30 pm

#### Environmental Learning Center

"Chimpanzee" is a heartwarming documentary that follows Oscar, a young chimp, as he grows and explores life in the African rainforest. Viewers will enjoy watching his playful curiosity, his bond with family, and the challenges he faces while learning to survive in the wild. This film offers a close, inspiring look at the world of chimpanzees and the importance of family. Feel free to bring a drink and snack to this program. We will meet upstairs in the Discovery Lab. **Save your seat by signing up with the QR code on this page.**

## January

### 16 Owl Prowl at Eveland Access

7:00-8:00 pm

#### Eveland Access Campground Parking Lot

Join us for a guided nighttime walk as we search for owls in their natural habitat. Learn about local owl species, their calls, and nighttime behaviors while enjoying a peaceful outdoor adventure. Perfect for all ages—dress warm, bring a flashlight and your sense of curiosity! **Pre-registration is needed. Sign up with the QR code on this page.**

# PROGRAMS FOR ALL AGES

## January cont.

### 20 Nature Documentary “Oceans”

1:00-2:300 pm

#### Environmental Learning Center

Join Sir David Attenborough as he explores the wonders of the ocean and the threats it faces, like destructive fishing practices. With stunning underwater footage, this documentary highlights the ocean's role in life on Earth and its fight against climate change. It also shows how marine ecosystems can recover if we take action now. Feel free to bring a drink and snack. **Pre-registration is needed to reserve a seat. Save your seat by signing up with the QR code on this page.**

## February

### 13 Storybook Players Return!

11:00 am - 12:00 pm

#### Environmental Learning Center

Oskaloosa High School's popular Storybook Players will bring their talents to the Environmental Learning Center this year with a fun and engaging lineup of performances. Audiences will enjoy *The Golden Goose*, *Peter and the Wolf*, *Scrunch's Magical Pinecone*, and *Scooby-Don't*, each presented with the troupe's signature creativity and energy. The event will feature interactive performances and student-led theatre, offering a lively and immersive experience for children and adults alike. **Seats fill quickly! Registration is not needed, just arrive early to get a seat!**

### 17 Nature Documentary “African Lion”

1:00-2:30 pm

#### Environmental Learning Center

This visually stunning wildlife feature offers an up-close look at life within an African lion pride. Follow their daily challenges, family bonds, and survival struggles on the savanna, all captured through immersive, cinematic storytelling. Both engaging and educational, it highlights the strength, beauty, and social complexity of these iconic big cats. Feel free to bring a drink and snacks. **Save your seat by signing up with the QR code on this page.**

## March

### 17 Shamrock Trail Trek

10:00-11:00 am

#### White Oak Conservation Area

Celebrate St. Patrick's Day with a fun spring hike at the White Oak Conservation Area! We will explore the trails, search for the first signs of spring, and enjoy the fresh air as nature begins to wake up for the season. We may even find some leprechaun tracks along the way! Wear something green, bring your curiosity, and join us for a lucky adventure outdoors! **Pre-registration is needed, and you can sign up using the QR code on this page.**

### 19 Macrame Plant Hanger & Wall Art Workshop

6:00-7:00 pm

#### Environmental Learning Center

Join us for a fun and creative macramé workshop! Participants of all ages can choose to make either a macramé plant hanger or a unique piece of wall art crafted on natural sticks. No experience is needed—just bring your creativity and enjoy a relaxing evening of hands-on crafting! **Save your seat by signing up with the QR code on this page.**

# PROGRAMS FOR KIDS

## December

### 22 Reindeer Facts & Fun!

10:00-11:00 am

#### Environmental Learning Center

Join us for a fun Reindeer program! Participants will learn all about these amazing animals—what they eat, where they live, and how they survive in the cold. We'll explore fun reindeer facts and get into the winter spirit together. Perfect for young and old nature lovers! *Pre-registration is needed, and you can sign up using the QR code on this page.*

### 22 Ice Age Mammoths

1:00-2:00 pm

#### Environmental Learning Center

Step back in time and discover the amazing world of Ice Age mammoths! In this fun program, kids will learn how woolly mammoths survived the freezing Ice Age—from their giant curved tusks to their thick fur coats. We'll explore real mammoth bones dug up right here in Mahaska County and find out what they can teach us about these incredible animals. To finish our adventure, we'll listen to exciting mammoth stories and imagine what life was like when these giants roamed our land. Perfect for young explorers who love fossils, animals, and big discoveries! *Pre-registration is needed, and you can sign up using the QR code on this page.*

### 23 Animal Tracks & Scat Discovery

10:00-11:00 am

#### Environmental Learning Center

Join us for an exciting exploration of local wildlife! Participants will learn how to identify different animal tracks and scat and discover the clues they reveal about the animals living around us. After our indoor introduction, we'll head out on a guided hike to put these new skills into action and see what signs of wildlife we can find. This free, all-ages program is perfect for curious nature lovers and outdoor adventurers alike! *Please sign up with the QR code on this page. A minimum of 5 kids is needed to hold the program.*

### 30 Slime Making S.T.E.M. Lab

2:00-3:00 pm

#### Environmental Learning Center

Join us for a fun and gooey S.T.E.M. adventure! Kids will learn simple science concepts while making their very own slime to take home. This free, hands-on lab is the perfect mix of creativity and curiosity—get ready to stretch, squish, and explore! *Pre-registration is needed, and you can sign up using the QR code on this page. A minimum of 5 kids is needed to hold the program.*

## January

### 7 Knee-High Naturalists “Nature Clues”

10:00-11:00 am

#### Environmental Learning Center

This is a free program for kids ages 5 and younger. This month, the kids will learn how animals make tracks with their feet. We will also take off our shoes and make a few tracks of our own! An adult needs to accompany the participating child. *Pre-registration is needed, and you can sign up using the QR code on this page. A minimum of 5 kids is needed to hold the program.*

# PROGRAMS FOR KIDS

## January cont.

### 14 Homeschool Science Lab “Draw My Picture”

10:00-11:00 am

#### Environmental Learning Center

This free program is open to homeschool and online students of all ages. This month, kids will explore animal drawing through a fun, interactive format. Students will receive playful clues to help them guess which animal they'll sketch next, making the session both creative and engaging. Join us for an imaginative art experience designed to spark curiosity and artistic expression! *Pre-registration is needed, and you can sign up using the QR code on this page. A minimum of 5 kids is needed to hold the program.*

## February

### 4 Knee-High Naturalists “Songbird Sweets Craft”

10:00-11:00 am

#### Environmental Learning Center

This free program is designed for children ages 5 and younger. This month, our little learners will explore what birds eat, discover how different foods help them stay healthy in winter, and make a special bird treat to take home. Join us for hands-on fun, simple science, and a chance to help our feathered friends! *Pre-registration is needed, and you can sign up using the QR code on this page. A minimum of 5 kids is needed to hold the program.*

### 11 Homeschool Science Lab “Gravity Games”

10:00-11:00 am

#### Environmental Learning Center

Get ready to drop, launch, roll, and explore! In this program, homeschool students will dive into Newton's laws of motion and discover how gravity shapes the way things move. We'll investigate both the challenges and the surprising benefits of gravity, then put our learning into action with hands-on experiments and fun gravity challenges. A perfect blend of science, creativity, and active learning! *Pre-registration is needed, and you can sign up using the QR code on this page. A minimum of 5 kids is needed to hold the program.*

### 13 Storybook Players Return!

11:00 am - 12:00 pm

#### Environmental Learning Center

Oskaloosa High School's popular Storybook Players will bring their talents to the Environmental Learning Center this year with a fun and engaging lineup of performances. Audiences will enjoy *The Golden Goose*, *Peter and the Wolf*, *Scrunch's Magical Pinecone*, and *Scooby-Don't*, each presented with the troupe's signature creativity and energy. The event will feature interactive performances and student-led theatre, offering a lively and immersive experience for children and adults alike. *Seats fill quickly! Registration is not needed, just arrive early to get a seat!*

## March

### 11 Knee-High Naturalists “Animal Tea Party”

10:00 - 11:00 am

#### Environmental Learning Center

You're invited to a special Animal Tea Party! Children ages 5 and younger are encouraged to bring their favorite stuffed animal as their very own tea party guest. We'll enjoy snacks along with lemonade and hot chocolate, play fun games, and make new friends together. Dress-up is welcome—feel free to wear your fanciest, funniest, or favorite outfit for the celebration! *Pre-registration is needed, and you can sign up using the QR code on this page. A minimum of 5 kids is needed to hold the program.*

# PROGRAMS FOR KIDS

## March cont.

### 10 Homeschool Science Lab "Inventions from Nature"

10:00-11:00 am

#### Environmental Learning Center

Discover how nature inspires human creativity! Homeschool students will explore real examples of inventions in medicine, clothing, food, and more that were created by observing plants, animals, and natural systems. From Velcro to bullet-proof vests, nature has shaped countless ideas. After exploring these fascinating examples, kids will have the chance to design and build their own nature-inspired invention. A hands-on, creative adventure in biomimicry! **Pre-registration is needed, and you can sign up using the QR code on this page. A minimum of 5 kids is needed to hold the program.**

### 17 Shamrock Trail Trek

10:00-11:00 am

#### White Oak Conservation Area

Celebrate St. Patrick's Day with a fun spring hike at the White Oak Conservation Area! Kids will explore the trails, search for the first signs of spring, and enjoy the fresh air as nature begins to wake up for the season. We may even find some leprechaun tracks along the way! Wear something green, bring your curiosity, and join us for a lucky adventure outdoors! **Pre-registration is needed, and you can sign up using the QR code on this page. A minimum of 5 kids is needed to hold the program.**

## Volunteer Training

January 19, 2026

Environmental Learning Center

ALL AGES ARE ENCOURAGED TO VOLUNTEER!

Sign up for a time using the QR Code:

1-2 pm or 5-6 pm

For questions and help with registration,  
call (641)673-9327.

# PROGRAMS FOR ADULTS

## December

*Check out the list of programs for all ages on pages 4-5!*

### 5 Coffee Club

9:00-10:00 am

#### Environmental Learning Center

Drop in and join us for fresh coffee and tasty treats on a Coffee Club day. We talk about upcoming programs, volunteer opportunities with Mahaska County Conservation, and about everything in nature. **This month, bring a cup or mug decorated for Christmas to take part in a door prize.** Registration is not needed, and we meet upstairs in the Discovery Lab.

### 12 O.W.L.S. "Christmas Cookie Decorating"

11:00 am-12:00 pm

#### Environmental Learning Center

Adults of all ages are welcome to join the O.W.L.S. (Older, Wiser, Livelier Souls) program for a festive afternoon of holiday cookie decorating. Bring a friend and enjoy a cozy, creative time decorating homemade sugar cookies. We'll have coffee, hot chocolate, plenty of cookies to sample, and lots of holiday cheer! **Pre-registration is needed to reserve a seat. Please call (641) 673-9327, email [decook@mahaskacountyia.gov](mailto:decook@mahaskacountyia.gov), or register online using the QR code at the top of this page.**

## January

### 9 Coffee Club

9:00-10:00 am

#### Environmental Learning Center

Drop in and join us for fresh coffee and tasty treats on a Coffee Club day. We talk about upcoming programs, volunteer opportunities with Mahaska County Conservation, and about everything in nature. **This month, bring a coffee cup or mug that has a winter theme on it to take part in a door prize.** Registration is not needed, and we meet upstairs in the Discovery Lab.

### 23 O.W.L.S. "Backyard Bird Treats"

1:00 - 2:00 pm

#### Environmental Learning Center

In this hands-on program, participants will make easy-to-follow bird food cakes to take home and hang outdoors. These treats are perfect for attracting winter birds and adding a little extra nourishment during the colder months. Come enjoy a relaxed crafting session and leave with something your feathered friends will love! **Pre-registration is needed. You can sign up using the QR code on this page, by calling (641)673-9327, or emailing [decook@mahakacountyia.gov](mailto:decook@mahakacountyia.gov).**

## February

### 6 Coffee Club

9:00-10:00 am

#### Environmental Learning Center

Drop in and join us for fresh coffee and tasty treats on a Coffee Club day. We talk about upcoming programs, volunteer opportunities with Mahaska County Conservation, and about everything in nature. **This month, bring a coffee cup or mug that has something about love on it to take part in a door prize. If you don't have one, feel free to decorate one!** Registration is not needed, and we meet upstairs in the Discovery Lab.

# PROGRAMS FOR ADULTS

### 27 O.W.L.S. "Prescribed Prairie Burns - Why Fire Helps Nature"

1:00-2:00 pm

#### Environmental Learning Center

Adults of all ages are invited to join our O.W.L.S. (Older, Wiser, Livelier Souls) program! Join us to discover how prescribed burns help native plants thrive, improve wildlife habitat, and keep our prairies healthy and vibrant. Guest speaker Ella Paulson, Green Iowa AmeriCorps member, will explain why land managers intentionally set controlled fires, how they do it safely, and what happens to the land afterward. Whether you're new to the idea or just curious, you'll discover why controlled fire is such an important conservation tool. **Pre-registration is needed. You can sign up using the QR code on this page, by calling (641)673-9327, or emailing [decook@mahakacountyia.gov](mailto:decook@mahakacountyia.gov).**

# B.A.R.K. RANGERS

## Tail-Wagging Fun at the Halloween Dog Costume Parade

Dogs and their owners came to the Halloween Bash for the dog costume parade at the Eveland Access Halloween Bash. The dogs were given treats by some campers and played bob for the hotdogs. It was a fun time! Each participating dog received a special event certificate stamped with their paw print!

### How Does My Dog Become A B.A.R.K. Ranger?

Select a Mahaska County park and complete a fun and easy activity checklist to earn your **FREE** B.A.R.K. Ranger certificate! Find the checklist on our website at [www.mahaskaconservation.com](http://www.mahaskaconservation.com) under the "Links" tab (see image below). After your visit, stop by the ELC during our open hours to get your certificate stamped with your dog's paw print. You can also buy a B.A.R.K. Ranger dog tag for \$10.00. *Cash or check to FMCC.*

Mahaska County Conservation Board

#### Related Links

## ANIMAL WINTER SAFETY TIPS

### PROVIDE SHELTER

- AT 32°F OR LESS, NO OWNED DOGS OR CATS SHOULD BE LEFT OUTDOORS UNLESS THEY HAVE ACCESS TO A WELL-INSULATED STRUCTURE THAT :
- IS LARGE ENOUGH TO CURL UP IN AND HAS A WIND BLOCK AT THE DOOR
- HAS AN ELEVATED FLOOR
- WARM DRY BLANKETS OR DRY STRAWS
- INCLUDES A HEATED WATER BOWL

### CONSIDER WALKING YOUR DOG

- CONSIDER SHORTENING THE WALK IF THE TEMPERATURE IS TOO FRIGID
- CHECK WITH YOUR VET WHETHER YOUR PET MAY WANT ADDITIONAL CLOTHING

### WARNINGS

SIGNS THAT YOUR PET MAY BE GETTING TOO COLD:

- TREMBLING
- SLOWED BREATHING
- MOBILITY ISSUES
- NUMBNESS
- ILLNESS

# VOLUNTEER NEWS

## Make Plans to Attend the Annual Volunteer & Partnership Appreciation Dinner

by Laura DeCook, Environmental Ed Coordinator

Our volunteers make everything we do possible, and we are grateful for the time, energy, and passion you give throughout the year. To celebrate all you've done, we invite you to join us for a special evening of thanks and recognition.

Please join us for a soup supper and fun on Monday, January 19, 2026, from 6:00-8:00 pm at the Environmental Learning Center. Soup, drinks and table service will be provided, and we ask volunteers to bring a finger food to share. During the event, we will present two special honors: Commitment to Conservation and Partnership of the Year, recognizing individuals and organizations who have gone above and beyond in their service this last year.

We hope you'll join us as we celebrate your hard work, dedication, and the incredible impact you make in our community. Thank you for all that you do!

Please let us know you plan on attending by signing up using the QR code below or call (641)673-9327. You can also email [decook@mahaskacountyia.gov](mailto:decook@mahaskacountyia.gov).

## Volunteer Training Date

If you would like to join our volunteer team or renew your volunteer status, come to our one-hour training on **January 19, 2026** at the Environmental Learning Center. **Please sign up for one of two sessions by scanning the QR code below, contacting our office at (641)673-9327, or emailing [decook@mahaskacountyia.gov](mailto:decook@mahaskacountyia.gov).** Volunteers are asked to attend a training once every three years.

Afternoon session 1:00-2:00 pm  
Evening session 5:00-6:00 pm

Looking for a way to give back and enjoy the great outdoors? Mahaska County Conservation is seeking volunteers to assist with a variety of projects and events this winter. Whether you have an hour or a whole day to give, your help makes a difference!

Here are some ways you can get involved:

- Serve as a Host at the Environmental Learning Center—welcome visitors and share your enthusiasm for nature.
- Become a Park Steward—"adopt" a park to help with trash cleanup, report maintenance needs, and support special projects.

# CONSERVATION CORNER

## Caldwell Park Oxbow Restoration Completed - A Wetland Brought Back to Life

by **Laura DeCook, Environmental Ed Coordinator**

Mahaska County Conservation is excited to announce that the Caldwell Park oxbow wetland restoration is now complete, marking a major milestone for habitat improvement and water quality in our community.

This project has been months in the making, and we are incredibly grateful for everyone who contributed their expertise, time, and effort.

The restoration was made possible through a strong partnership with the Iowa Soybean Association, with the project overseen by both the Iowa Soybean Association and the U.S. Fish and Wildlife Service (USFWS). Their teams provided the vision, design work, and technical guidance, handled required permitting, and ensured construction was completed with environmental precision.

A special thank-you goes to Carl Drost, who operated the heavy equipment and played a key role in shaping the oxbow. His skill and attention to detail helped bring the wetland back to life. With Carl on the machine and the Iowa Soybean Association and USFWS overseeing the process, the restoration was truly in expert hands from start to finish.

After the earthwork was completed, the Iowa Soybean Association supplied a diverse native seed mix—featuring grasses, sedges, and wildflowers—to help establish a thriving natural habitat. These plants will support birds, amphibians, pollinators, and other wildlife while improving water quality by slowing runoff and filtering pollutants.

Wetlands like this serve as nature's water filters and natural flood managers. Thanks to this successful restoration, Caldwell Park now has a healthy, functioning wetland, working quietly and beautifully to benefit both wildlife and the community.

We extend our sincere appreciation to everyone involved in completing this meaningful conservation project. Your dedication has helped restore an important piece of Iowa's natural heritage.

## New Trumpeter Swan Mount on Display at the Environmental Learning Center

by **Laura DeCook, Environmental Ed Coordinator**

Stop by the Environmental Learning Center to see our newest display—a beautiful trumpeter swan mount! A big thank-you to the Friends of Mahaska County Conservation for purchasing the taxidermy for this impressive specimen and bringing it to the ELC.

Trumpeter swans are the largest native waterfowl in North America, with wingspans reaching up to 8 feet. Once nearly extinct, their populations have made an inspiring recovery.
